

LANGUAGE REQUIREMENTS AND COURSES

- **Obligatory language test**

Online language test is obligatory for students qualified for study periods, before and after mobility. If the test result is equal or below B1 language level, the student must take an online language course.

Info about the online test will be given to qualified students by the PUT Erasmus Coordinator.

- **Courses organised by partner universities**

Most partner universities organise intensive, 2-3-week courses of their national language before the start of the academic year, or before each semester.

Usually the courses are free of charge, but e.g. in Germany they cost ca 140 euros. More info – in web services of partner universities.

The course can be included into the study period and be financed with the Erasmus scholarship, according to the rules defined in the agreement.
